

This is a data collection form for NH Sea Grant's Green Crab volunteer monitoring project (coordinated by Dr. Gabriela Bradt).

Due to the goals of the project, we are only interested in crabs larger than 0.5 inches (13 mm) in size (measured as the width of their body, not legs). Please fill out the form once for each crab you would like to report.

Thanks so much for your participation!

Name	<input type="text"/>		
Email	<input type="text"/>		
City/Town where you live	<input type="text"/>		
County	<input type="text"/>		
Date of Measurement	<input type="text"/>		
Size of Crab	<input type="text"/>		
Sex of Crab	Male	Female	Don't know
Shell Hardness	Hard	Soft	Don't Know
Color	Green	Brown	
	Red/Orange	Mottled	
Location of crab	<input type="text"/>	GPS Coordinates	<input type="text"/>
How did you hear about this project?	<input type="text"/>
