

1. Orient your camera

2. Place the camera to face North ("1" on the platform)

3. Position your camera around the platform to take 4 pictures in this order: N, NE, W, and NW.

These are marked as **1, 2, 3, 4** on the platform.

Take your pictures clockwise starting at the North (1).
Note the date and time.

If you have the iPhone app, you can take and upload pictures using the app. Just skip pictures that are *not* N, NE, W, or NW.

What do I do with my pictures?

1. Find the post on the website:

Post Name and URL:

Depot Road Marsh – Hampton Falls NH
<https://picturepost.unh.edu/post.jsp?postId=1277>

2. Click on "upload pictures".

If you haven't logged in, you will be guided to register and/or log in.

Be sure to upload pictures to the N, NE, W & NW viewpoints.

If you have a mobile device:

If there is a connection, you can take & upload pictures now on the website.
OR you can take pictures now and upload them later on the website.

If you have a digital camera:

You can take pictures now and download them later to your computer and then upload them from your computer to the website.

3. Follow the instructions to upload your pictures.

A REFERENCE PHOTO for each view is shown to help if you did not take your pictures in order or you forgot which one is which!

- Upload N** – this is the view marked "1" on the platform.
- Upload NE** – this is the view marked "2" on the platform.
- Upload W** – this is the view marked "3" on the platform.
- Upload NW** – this is the view marked "4" on the platform.

Make sure the date & time are correct, then click the "submit" button. Thank-you for being a citizen scientist!
