

N.H. Sea Grant's 2013 Brian E. Doyle Undergraduate Marine Extension Fellowships

Paid Summer Fellowships for Juniors & Seniors of all Majors!

Applications are due April 8!

What is it?

The Doyle Fellowship is an opportunity for incoming juniors and seniors from any four-year institution in N.H. to take the first step into a possible career. You will be working hands-on with professionals to help individuals and organizations make informed decisions regarding our marine resources.

Brian Doyle

This undergraduate fellowship program is named in honor of N.H. Sea Grant's long-time associate director, who was a champion of Sea Grant and of undergraduate education. This competitive program seeks to focus students on connecting research to extension, education and communications as members of the NHSG team.

The Possibilities

The Doyle Fellowship provides a wide range of opportunities for students to participate in extension program areas including:

- **Fisheries and Aquaculture** – sustainable fishing practices, fish and shellfish production or seafood marketing
- **Marine Literacy** – floating labs, Great Bay discovery cruises or the Marine Docent program
- **Coastal Communities & Climate Adaptation** – storm water mitigation and community adaptation planning
- **Communications** – science writing, video production or social media development

How to Apply

Students interested in applying for a 2013 Doyle Fellowship should submit a two-page statement of interest and a letter of recommendation from a faculty member or advisor. Statements of interest should include a N.H. Sea Grant extension program area that the student would like to work in as well as any particular goal(s) the applicant would like to achieve during his or her fellowship. Fellows will be asked to present their projects at a NHSG event during the following academic year.

Applications are due April 8 and notifications will be made by April 26. For more information or to submit your statement of interest and letter of recommendation, use nh.seagrant@unh.edu.

Show me the Money

Successful applicants will receive a \$3,000 stipend for the summer fellowship. While start and end dates and hours are negotiable, fellows are expected to work the equivalent of eight 30-hour weeks.
