

DISCOVER THE OCEAN AT THE WOODMAN MUSEUM

Thursday, July 20, 2017
10:00 a.m.-3:00 p.m.

Free and Open to the Public

The UNH Marine Docents bring marine science to you!

We will have plenty of hands-on activities for curious visitors.

- Meet sea stars, crabs, and other creatures that live on our rocky shore.
- Learn interesting facts about lobsters, octopuses and marine mammals.
- Learn something new about our Great Bay Estuary habitats, seaweed we find on our beaches, and so much more!

Explore the ocean LIVE FEED with Dr. Robert Ballard and the Corps of Exploration! Learn about *Nautilus*, a 64-meter research vessel operated by the Ocean Exploration Trust.

NAUTILUS LIVE

Join us and explore the ocean in your own back yard!
